FOR IMMEDIATE RELEASE

Los Angeles Web Design Company Launches New IRS & State Tax Resolution Website

With over two million Americans a year faced with unpaid tax liabilities, the IRS and most states' complex code systems make negotiation and resolution difficult at times, says Social Media Top Team's Business Development Executive, Melinda Harrison.

"Moreover, many Americans who try to resolve tax problems themselves sometimes end up in a situation which is worse with the IRS or their State Revenue Department than if they used a tax professional," said Harrison, who was speaking at the official launch of YourTaxClinic.com.

YourTaxClinic.com helps people resolve tax issues with the IRS or the State they reside in.

Having noted how the IRS or State back taxes can cause undue stress and difficulty finding the right tax resolution specialist to work with, Harrison encourages persons to first get a free consultation and/or case review from a professional tax specialist.

"This consultation will inform you of your options, and what your fees would be. Besides, it will ensure you get the professional help you need from an ethical and experienced tax expert," said Harrison, who points out the goal of *YourTaxClinic.com* is to help persons become tax debt free.

"The new *YourTaxClinic.com* site will help you understand the tax problem you are facing," added the spokesperson of Social Media Top Team.

"It features actual audio testimonials and reviews from their customers as well as a podcast feature and it even provides a 10 minute IRS Video Tax Guide and book that site visitors can view on their website," explained Harrison.
